Figure 1: WHO pyramid model

The WHO model is a service organisation pyramid describing an optimal mix of services for mental health. The most costly services are the least frequently needed, whereas the most needed services can be provided at a relatively low cost. Self-care features through all services and all levels of the pyramid. Reproduced from WHO.<sup>81</sup>

### Our mission...

# ...the special status

### Who we are

### Where we are

Status as of 12/2019

More figures to our service around the german social code V (inpatient and outpatient services (e.g. hospital treatment) ) under: <a href="https://www.pfalzklinikum.de/fileadmin/user\_upload/Dokumente/Qualitaetsmanagement/2019-11-07">www.pfalzklinikum.de/fileadmin/user\_upload/Dokumente/Qualitaetsmanagement/2019-11-07</a> Gesetzlicher\_Qualitaetsbericht\_2018.pdf (document in German; document for 2019 under way)

# Made-to-measure, Multi-professional, Personal Model project at Pfalzklinikum

- Term of 8 years, starting January 2020.
- Biggest model project in Germany\* regarding financial volume and service range.
- Coherent treatment, integrative and focused on the individual for childern, young adults and adults.
- Treating affected individuals differently, not treating different individuals.
- Fluent transitions between hospital inpatients, outpatient services and ambulatory services.
- Steady set of caregivers all along the therapeutic path.
- Increased degree of visiting care by multi-professional teams.
- Stronger involvement of affected individuals and their environment during the treatment.
- Sub-projects within the model project: personnel and organizational development; funding and finance; services and structures; evaluation and communication

\* after § 64b SGB V

### Project partners in the model project

Services of Integration Support

- Separation of the divisions of Care-Foster-Live
- Person-centered approach of assistance services
- Provision of services according to individual need of assistance
- > Starting 2021
- High degree of involvement of peers and employees
- Negotiations about new financial logic with the state Rhineland-Palatinate

### Future Concept of Forensic Treatment

Synthesis of living environments:
Between hospital treatment order and psychosocial treatment
